Integrity Program

In TGN

We maintain the highest standards of ethics and professional conduct in the way we conduct business.

We firmly believe that acting with integrity and transparency guarantees a successful and sustained relationship with our stakeholders.

We expect integrity throughout the organization - at all levels. The culture of ethics and transparency is a fundamental pillar in the development of our activities.

Integrity and Transparency Program

We designed TGN's Integrity Program based on risks, in order to contribute to strengthening the company's anti-corruption culture and to accompany our business.

We work to generate actions, mechanisms and internal procedures to promote integrity, supervision and control aimed at preventing, detecting and correcting irregularities and illegal acts.

Clear Policies

We have clear and defined policies that guide the actions of our employees and executives regarding anti-corruption issues, such as the Code of Ethics and the Anti-Corruption Policy; together with processes for hiring third-party intermediaries and business partners for participation in public biddings, for dealing with conflicts of interest, gifts, lodging and travel expenses, and also with procedures for donations, memberships and sponsorships, among others.

We ensure that we periodically communicate to employees, at all levels of the organization, what is expected of them and train them to comply with the procedures and controls.
